see second page for more details

Search for: ***Here is what I have in the variable*** in gmail for more detail (mail from Gloria)

and

SourceForge case <http://sourceforge.net/p/documentburst/bugs/51/>

{863}

Here is what I have in the variable: <1>a863@a863.com;b863@b863.com;c863@c863.com</1>

And here is what the log file says:

17/03/2014 16:09:55 [main] ERROR com.smartwish.documentburster.scripting.Scripting - Error happened for burst token: 863, file path: 'output/20140317\_PRD BD TESTING

TOv6.pdf/2014.03.17\_16.09.50/FY2015 Per2 SP1\_Emerging Markets\_OppbyCGSL.pdf'. Processing will continue since 'failJobIfAnyDistributionFails' configuration is 'false'.

java.lang.Exception: Invalid email address 'a863@a863.com;b863@b863.com;c863@c863.com' found for the token '863'!
